

PUBLIC MEETING SURVEY

US 60 / Grand Avenue Feasibility Study (Loop 303 to 99th Avenue)

Arizona Department of Transportation Project No. 060 MA 139 H7327 01L

March 25 & April 1, 2008

The Arizona Department of Transportation has prepared a draft recommendation as part of the Grand Avenue Feasibility Study (Loop 303 to Loop 101) to prioritize potential projects for implementation in Phase II (2011-2015) of the Regional Transportation Plan (RTP). Your input is important to us. Please provide your input regarding the draft project recommendations by completing this public meeting survey. Please return your completed survey to the reception table as you leave the meeting. You may also return your survey via US Mail by April 8 to the following address:

ADOT DRAFT PROJECT RECOMMENDATIONS

Projects recommended for implementation, ranked in order of priority, based on available RTP Phase II funding:

1. Bell Road
2. 103rd Avenue
3. Thunderbird Road

Projects for future consideration (unranked), if additional funding becomes available:

- Greenway Road – High Priority
- Meeker/Reems Road – Low Priority
- 107th Avenue – Low Priority
- Drainage channel closure – Low Priority
- Landscaping and other aesthetics – Low Priority

Note: RTP Phase II funding for improvements to this section of Grand Avenue is limited to \$64 million. Based on the available funding, it is likely that not all of the projects recommended for funding can be constructed. Community input on the draft recommendations, as well as engineering, cost and other factors, will be used to prepare the final recommendations in the study report. The study recommendations will be submitted to the federally recognized Metropolitan Planning Organization for Maricopa County, the Maricopa Association of Governments (MAG), to be evaluated for implementation.
